Re: Notice of Violation, Failure to Monitor, December 2017

Dear Mr. Fairchild:

Water purveyors (pursuant to Article 3, Section 64421(a)(2), Title 22 of the California Health and Safety Code) are required to conduct periodic water tests for Total Coliform Bacteria.

Our records indicate that the Water System at California Caverns has failed to monitor for Total Coliform Bacteria during the month of December 2017.

Failure to Monitor is a major violation and requires Public Notification and the return of a Proof of Public Notification. Copies of the required Public Notification and the Proof of Notification forms are enclosed. The Public Notification contains mandatory language, and all consumers must be notified. The Public Notification can be conspicuously posted, mailed or hand delivered to consumers.

The Proof of Notification must be signed, dated and returned to this office within 30 days of the date of this correspondence. Failure to return the Proof of Notification is a violation.

If you have questions regarding these requirements, please free to contact me. I can be reached at the office at (209) 754-6887.

Sincerely,

Stephanie Hessler, EHST  
Drinking Water Program

cc: Lisa Medina, Manager, Environmental Health Department
